KUSHAL JETTY K V

Karnataka, India | kushaljetty1203@gmail.com | KushalJetty | kushaljetty | kushaljetty

TECHNICAL SKILLS :

- **Languages :** C, Python, Java, Solidity, Javascript, Golang, PHP, SQL, HTML & CSS.
- **Frontend development:** React, Angular, Tailwind, Next.js.
- **Backend development:** MERN Stack, Django Framework, Flask, REST api, websocket.
- **Cloud & CRM :** Amazon Web Services (AWS), Google cloud platform, Salesforce CRM.
- **Data Science & ML :** Numpy, Pandas, Matplotlib, Scikit-learn, Langchain**,** LangGraph, OCR, Image Processing, MCP**.**
- **Automation & Testing :** Selenium, Playwright.
- **Development & Operations :** Git, Bash, Docker, Kubernetes.
- **Others :** ubuntu, Claude cli, ollama, JIRA, Scrum, Agile development.

EDUCATION :

- CSE | **Adichunchanagiri Institute of Technology** *CGPA:8.83 | (Dec'21-25)*
- Class XII (PUC) | **Sri Sai Angels Pre-University College** *90.83% | 20/07/2021*

PROJECTS :

- **StreamzAI Test Generator : A Flask-based web application for managing, recording, and executing automated browser tests organized into projects and test suites.** [StreamzAI Internship]
  - **Technologies used:** Python, Flask, SQLAlchemy, SQLite, Playwright, Bootstrap 5, JavaScript.
- **GI Disease Detection** : A deep learning web application that classifies gastrointestinal diseases from endoscopic images with treatment recommendations. [Final Year Project]
  - **Technologies used**: Python, Flask, TensorFlow, Keras, OpenCV, NumPy, Matplotlib, SQLite, HTML, CSS, JavaScript.
- **Disaster Recovery :** Implemented a **disaster recovery** solution using **VPCs**, **subnets**, **EBS volume**, **cloudtrail** and **EC2** instances using aws.
- **Digital Signature System :** A web and desktop application for secure user authentication and PDF document signing with RSA cryptography, QR code embedding, and signature validation. [HAL internship]
  - **Technologies used:** PHP, MySQL, Python, Tkinter, OpenSSL, Cryptography (RSA/SHA-256), PyPDF2, ReportLab, Pillow, HTML, CSS, JavaScript, XAMPP.
- **Get-Set-Pill: An IOT Project :** A Pill Remainder **Iot Project** which notifies users to take their **medication.** [Hackathon]
  - **Technologies used:** embedded C, **piezo-buzzer**, **Node MCU** ,**IR sensors** and **arduino**
- **Car Rental System:An Salesforce project :** Implemented **Carousel** Feature using **Lightning Web Component** and automated queries and dashboard using salesforce. [Hackathon]
- Other Projects: Cruiser Tavelling, Codesourcerer, Content_approval_tool, Gurukool-an rural education platform.

EXPERIENCE :

Position	Company	Duration	Work Mode
Member Of Technical Staff	StreamzAI	Aug 2025 – Present	Remote
Intern – Technical Staff	StreamzAI	Feb 2025 – July 2025	Remote
Intern	HAL	Apr 2024 – May 2024	In Office

ACCOMPLISHMENTS :

- Inter Level Hackathon 1st Place.
- Solved 150+ DSA problems in GeeksforGeeks
- National Level Hackathon **1st Place and second runner up.**
- **IEEE international Conference Volunteer**.
- **First Place** in Debugging.
- Best Computer Graphics and Image processing mini project.

PAPER PUBLICATIONS :

- Gastrointestinal Disease detection from endoscopic images using deep learning techniques.
- CodeSourcerer: A Proxy-Based Test Generation System for GitHub CI/CD Pipelines.
