KUSHAL JETTY K V

Karnataka, India | kushaljetty1203@gmail.com | KushalJetty | kushaljetty | kushaljetty

TECHNICAL SKILLS :

- **Languages :** C, Python, Java, Solidity, Javascript, Golang, PHP, SQL, HTML & CSS.
- **Frontend development:** React, Angular, Tailwind, Next.js.
- **Backend development:** MERN Stack, Django Framework, Flask, REST api, websocket.
- **Cloud & CRM :** Amazon Web Services (AWS), Google cloud platform, Salesforce CRM.
- **Data Science & ML :** Numpy, Pandas, Matplotlib, Scikit-learn, Langchain**,** LangGraph, OCR, Image Processing, MCP**.**
- **Automation & Testing :** Selenium, Playwright.
- **Development & Operations :** Git, Bash, Docker, Kubernetes.
- **Others :** ubuntu, Claude cli, ollama, JIRA, Scrum, Agile development.

EDUCATION :

- CSE | **Adichunchanagiri Institute of Technology** CGPA**:**8.83 | 2021-2025
- Class XII (PUC) | **Sri Sai Angels Pre-University College** 90.83**%** | 20/07/2021

PROJECTS :

- **StreamzAI Test Generator** **:** A **Flask**-based web application for managing, recording, and **executing automated browser tests** organized into projects and test suites**.** [StreamzAI Internship]
  - ➢ **Technologies used:** Python, Flask, SQLAlchemy, SQLite, Playwright, Bootstrap 5, JavaScript.
- **GI Disease Detection** : A **deep learning** web application that **classifies gastrointestinal diseases** from **endoscopic images** with treatment recommendations. [Final Year Project]
  - ➢ **Technologies used**: Python, Flask, TensorFlow, Keras, OpenCV, NumPy, Matplotlib, SQLite, HTML, CSS, JavaScript.
- **Disaster Recovery** **:** Implemented a **disaster recovery** solution using **VPCs**, **subnets**, **EBS volume**, **cloudtrail** and **EC2** instances using aws.
- **Digital Signature System** **:** A web and desktop application for secure user authentication and PDF document signing with RSA cryptography, QR code embedding, and signature validation. [HAL internship]
  - ➢ **Technologies used:** PHP, MySQL, Python, Tkinter, OpenSSL, Cryptography (RSA/SHA-256), PyPDF2, ReportLab, Pillow, HTML, CSS, JavaScript, XAMPP.
- **Get-Set-Pill: An IOT Project** **:** A Pill Remainder **Iot Project** which notifies users to take their **medication.** [Hackathon]
  - ➢ **Technologies used:** embedded C, **piezo-buzzer**, **Node MCU** ,**IR sensors** and **arduino**
- Other Projects: Cruiser Travelling, Codesourcerer, Content_approval_tool, Gurukool-an rural education platform, Car Rental System:An Salesforce project.

EXPERIENCE :

StreamzAI | Member of Technical Staff | Ex-Intern Feb 2025 – Present | **Remote**

- Backend and AI-focused engineer with experience in developing scalable systems, REST APIs, and data-driven solutions across industry and research environments.

Hindustan Aeronautics Limited: HAL | Intern Apr 2025 – May 2025| **In Office**

- Worked as an IT intern at Hindustan Aeronautics Limited (HAL), focusing on secure system development and real-world software applications.

ACCOMPLISHMENTS :

- **First Place in Debugging.**
- **Inter Level Hackathon 1st Place.**
- **IEEE international Conference Volunteer.**
- **National Level Hackathon 1st Place and second runner up.**
- **Best Computer Graphics and Image processing mini project.**

PAPER PUBLICATIONS :

- Gastrointestinal Disease detection from endoscopic images using deep learning techniques.
- CodeSourcerer: A Proxy-Based Test Generation System for GitHub CI/CD Pipelines.

LANGUAGES :

- English (B2), Hindi, Kannada.
